Every day more love, all that we can give,
to cherish and treasure each moment that you live.
Every day brings joy, watching as you grow.
You are our rainbow.

See our hopes and dreams come alive in you.
Wisdom and courage to learn from all you do.
A free and open mind, a strong and healing heart,
to guide you from the start.

How your world is magic! Touching, tasting, feeling.
Eyes that shine with wonder. Every day and every day more love.

Got your mama's smile and your daddy's eyes.
Tiny handshake reaches for a prize.
Arms that one day might hold a child as sweet
to make your world complete.

How we need you, baby! Clinging, hugging, laughing.
Give you all our kisses. Every day and every day more love.

Every day more love, all that we can share,
to raise you, teach you, bless you with this prayer.
May you always know love so pure and true,
the gift that comes from you.
Every day and every day more love.
